## IN THE COUNTRY.

Pumpkin pie and apple cider!  
Cut 'em loose and open wide!  
Ain't no time like fall for autumn!  
Hick'ry nuts in river bottom.  
Who said fall was melancholy?  
Just the time to be real jolly.  
Stir that steaming apple butter!  
Fry them doughnuts—leak 'em spatter!  
See them trees with apples laden!  
See the bixom country maiden!  
Serenade of plenty, bliss abroad!  
Sparkling eyes and rosy features!  
Jovous, blessed, happy creatures!  
Apple snits and pumpkin pies!  
Eggs and butter bring good prices.  
Gran'ries full and runnin' over!  
Ruliger bayones sweet with clover.  
Country sausage! Goodness, land sakes!  
Hurry up them buckwheat pancakes!  
My, oh my, but don't we pity  
Poor folks livin' in the city!  
—Punzawaddy Spirit.

"Why is it," he asked in his scornful, masculine way, "that a woman will wear a little pink slip with a few flowers on it and call it a hat?"

"Why is it," she replied, "that a man will wear a section of pipe, painted black and polished, its length being from one and a half to two times its diameter, and think he has added to his appearance as a man?"

After mature reflection each gave up the other's question.

The cigarette was first introduced into this country at the close of the Crimean War by British officers, who had found themselves under compulsion to adopt Turkish fashions of consuming tobacco, seeing that there was not a decent cigar to be obtained for love or money throughout the length and breadth of the Ottoman Empire. Pipe smoking was strongly discouraged at regular intervals of forty days ago; indeed, it is scarcely tolerated at the present day in some of the "tongue" military and "cigar" clubs in Germany.

THE OVERS GUIDE

A Big Wheat Crop For 1899.

That's our prediction for Mason, Bracken and Robertson counties. We make no pretensions in the way of fortune telling; neither are we a prophet. We are simply gifted with a goodly amount of "horse sense." We know that there will be a good wheat crop next year, because the bulk of the wheat sown this fall will be sown with Empire Drill, and they make no mistake. Empire Drills are positive and absolute. They do exactly what you tell them to do. The Empire Drill is the only positive feed drill made. It will feed the same quantity of wheat, rye, oats or barley with the same gear. Size of the grain does no figure with the Empire. You do not have to sow four or five acres before you know what you are doing as with other drills. The Empire has telescoping steel conductors which never break or choke up as do the old-fashioned rubber conductors. The Empire drag bars are fastened to the top of the boot, five inches higher than on other drills and trash will not choke and stop the Empire.

THE EMPIRE WHEAT DRILL

will drill corn successfully. Remember, the Empire is a positive feed drill, and the only one on the market. The grain is gently lifted into the conductors by a round, saucer-shaped part which is made to rotate by a square shaft. Only so much grain can be lifted and fed as this part will hold, and in order to sow a large or small quantity of grain per acre you simply put a large or small cog wheel on this shaft, which makes the round, saucer-shaped lift revolve faster or slower. Each cog wheel is numbered and guaranteed to sow an exact quantity of any grain per acre—wheat, rye, oats, barley. The Empire has tapering axles like a thin-blade wheel, and a peculiar wheel, a wheel that we will guarantee will not rub the boxes in five years as on other drills—no, not in twenty-five years. Buy the best. Buy the Empire and take advantage of 45 years of experience. The factory now offers you the result of a lifetime's study and invention, viz: The Empire Drill. Ask your grandfather about it. Ask any old citizen if he ever heard of an Empire Drill. I can show you an Empire Drill that is 31 years old and still running. The Empire for 45 years has had a National reputation—known and used the world over except Mason county. The Empire is not a cheap drill. It costs the agent a little more than other drills. Perhaps that is why your implement dealers have never sold the Empire Drill here. Empire Drills are being exhibited and sold in Mason county now. I have shown this drill to at least 80 farmers in the last two weeks and every one is enthusiastic in its praise. Call, examine this wonderful machine and convince yourself. It is a pleasure for us to exhibit it. Call and see us.

A CRITICAL TIME.

During the Battle of Santiago—Sick of Well, a Rush Night and Day.

The Packers at the Battle of Santiago de Cuba Were All Heroes—Their Heroic Efforts in Getting Ammunition and Supplies to the Front Saved the Day.

P. E. Butler, of pack-train No. 3, writing from Santiago de Cuba, on July 25th, says: "We all had diarrhoea in one or less violent form, and when we landed we had no time to get a doctor, for it was a case of rush and night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to work there would have been no food getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I know in four cases it absolutely saved life."

The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by J. W. Wood & Son, Druggists.

Today V Crimp Roofing is selling at \$1.35 a square in Maysville, notwithstanding the fact that all factories advanced the price July 30th 10 cents a square. St. Louis, Sept. 23.—The Republic Friday will say: Tobacco manufacturers and dealers in St. Louis regard the 10 per cent. cut made by the Liggett & Myers Tobacco Co. on all its brands as the beginning of another terrific fight to be waged between the independent factories and the American Tobacco Co., commonly referred to as the trust. The fact that the Drummond Tobacco Co., of this city, has not made any reduction leads to the belief that the Continental deal will go through, even if it has not already been consummated and that the Drummond will eat their lot with the combine.

SWORD TO BE PRESENTED TO ADMIRAL DEWEY BY THE AMERICAN GOVERNMENT.

United States. It is known that the troops of the 7th corps now under Gen. Lee, will be designated to go to Cuba and that troops from the camps at Lexington, Knoxville and Middletown, will be selected for Cuba duty. It is understood that Gen. Miles deals only with organizations, such as corps, divisions, brigades and regiments. The matter of commanding and staff officers will be settled after the mustering out of general and staff officers has been determined.

The navy department has recently placed orders for forgings for naval rifles of calibers from four to 12 inch to supply the new battle ships, and in a short time the navy yard factory will begin to turn our ordinance embodying radical changes in construction and much more powerful than guns of the same caliber now afloat on our ships.

The ordinance officers have for several years realized the possibility of improving the present standard naval gun, effective as it is, but the time has not been opportune to do this, nor was the money available to undertake the change on a large scale until this year.

The advent of smokeless powder has enabled to make the change possible. The new 13-inch gun will be as effective as the present 13-inch gun in range and striking force. This is achieved at the expense of weight, but the difference is still in favor of the new design. For instance, the present 13-inch gun weighs 46 tons, against 52 tons for the new gun. But this gun takes the place of a 13-inch gun which weighs 91 tons, so that a considerable saving is effected. About the same rate of gain is secured in all the lesser calibers. The new gun will send its projectile at the enormous velocity of 8,000 feet per second, which is about 50 per cent. greater than the velocity of the present 13-inch shell.

The ordinance officers say that there is a very erroneous idea prevalent as to the value of the ammunition shot away by Dewey at Manila and by Sampson's fleet at Santiago. Instead of this running up as high as \$50,000, as asserted in some quarters, the fact was that Dewey at Manila used \$45,000 worth of ammunition and the North Atlantic fleet at Santiago, on July 3 and during the bombardment, not to exceed \$100,000.

An Inquest in Yellow Mill Pond Murders.

HINDSBOROUGH, Ct., Sept. 23.—At an inquest held Thursday afternoon by Coroner Doten, it was fully established by relatives of Miss Emma L. of Southington, that the body found in Yellow mill pond September 19 and 20 was hers. Her father and three brothers fully identified the remains and the coroner has issued an order permitting them to be exhumed and taken to Southington for interment.

berg hospital, where another hour was spent. In both hospitals Gen. Alger and Gen. Sternberg spoke cheering words to each and every one of the many patients and shook hands with every nurse. One remark he repeated was: "I honor you brave boys as much as I do any of this war's heroes."

### STARTLING RUMORS.

One That the Emperor of China is Dead—Another That He Has Resigned His Power to the Empress.

PEKIN, Sept. 23.—An imperial edict just issued definitely announces that the emperor of China has resigned his power to the empress (Dowager empress), who has ordered the ministers to deliver to her in future their official reports.

ST. LOUIS, Sept. 23.—A local rumor is current here to the effect that the emperor of China is dead. No details are obtainable here but the gates of Peking are closed.

Funeral Train Arrives in Washington. Washington, Sept. 23.—The train on the Pennsylvania railroad bearing the remains of Miss Winnie Davis arrived at the Sixth street station from the east en route to Richmond Va., shortly before 11 o'clock Thursday night. To the regular train had been attached a special combination car, a parlor car and one Pullman sleeper for the remains and for the party accompanying them.

Distribution of Nations Without Paying Duty.

Carles, of Portugal, Warned of Danger.

Indianapolis the Next Meeting Place.

St. Louis, Sept. 23.—The Carriage Builders' association concluded its convention Thursday and adjourned with the selection of Indianapolis as the next meeting place.

gerous electricity, generated by the Dreyfus affair, the general who has just quitted the cabinet, in defiance of civil authority, takes, without consulting his successor or the premier, an important step. In ordinary circumstances, the military governor is empowered to act independently; but, now that the Dreyfus question has become a great national matter, every proceeding in the affair has state importance.

Gen. Zurlinden's ignoring of this obvious fact is very significant. He comes forward as the defender of the army, the prosecutor of its supposed traitors, and the defender of the empire against a revision of the case. From this to an appeal to the public in the line of the establishment of a dictatorship, there is no wide step.

Piquart was transferred Thursday afternoon to the military prison of Cherche Mid.

The Matin affirms that it has authentic information that the name of Dreyfus was never once mentioned in the mass of documents brought against him. It adds that the only serious document is the so-called border document. The documents in the case, it appears, consist of fragments of letters referring to every thing except Dreyfus, and the whole matter, the Matin adds, "constitutes such a fairy tale that no sober-minded person would dream of accepting it."

Gilchrist is understood to have completed arrangements Thursday for the charter of all ten of his schooners for three years, with an option to the New York company to purchase at any time during the period of charter.
